1. There will be a fielding restriction circle in a radius of approximately thirty (30) yards (27.43m) from the middle stump at each end. This fielding restriction circle is not to be marked in any permanent or semi-permanent way or any way that is likely to cause a hazard to participants in the match.
2. The fielding side is not permitted any more than:
  - a) two (2) fielders beyond this circle for the first six (6) overs of an innings, and
  - b) more than five (5) fielders beyond this circle for the remaining overs of the innings.
3. Where a team has more than the allowed number of players outside the fielding restriction circle at the moment of delivery, either umpire will call, and signal a “no ball”.
4. In the event that the number of overs available to the batting team is reduced, the number of overs for which the fielding restrictions of paragraph 28.1 and 28.2 shall apply will be reduced in accordance with the table below.

10 – 13	3
14 – 16	4

6. If an innings is interrupted during an over and if on resumption of play due to the reduced number of overs of the batting team, the required number of overs for which fielding restrictions apply have already been bowled, the remaining deliveries in the over to be completed shall not be subject to the fielding restrictions.

## Appendix A. LAWS OF CRICKET REFERENCES

All Extracts are from the Laws of Cricket 2017 Code 3<sup>rd</sup> Edition – 2022)

### 1. Playing Condition 2.1 Fitness for Play refers to Laws of Cricket 2.7 and 2.8

#### 2.7 Fitness for play

2.7.1 It is solely for the umpires together to decide whether either conditions of ground, weather or light or exceptional circumstances mean that it would be dangerous or unreasonable for play to take place.

Conditions shall not be regarded as either dangerous or unreasonable merely because they are not ideal.

The fact that the grass and the ball are wet does not warrant the ground conditions being regarded as unreasonable or dangerous.

2.7.2 Conditions shall be regarded as dangerous if there is actual and foreseeable risk to the safety of any player or umpire.

2.7.3 Conditions shall be regarded as unreasonable if, although posing no risk to safety, it would not be sensible for play to proceed.

2.7.4 If the umpires consider the ground is so wet or slippery as to deprive the bowler of a reasonable foothold, the fielders of the power of free movement, or the batters of the ability to play their strokes or to run between the wickets, then these conditions shall be regarded as so bad that it would be dangerous and unreasonable for play to take place.

#### 2.8 Suspension of play in dangerous or unreasonable circumstances

2.8.1 All references to ground include the pitch. See Law 6.1 (Area of pitch).

2.8.2 The Umpires shall immediately suspend play, or not allow play to start or to recommence, if either umpire considers that the conditions of ground, weather or light, or any other circumstances are either dangerous or unreasonable.

2.8.3 When there is a suspension of play it is the responsibility of the umpires to monitor conditions. They shall make inspections as often as appropriate, unaccompanied by any players or officials. Immediately the umpires together agree that the conditions are no longer dangerous or unreasonable they shall call upon the players to resume play.

### 2. Playing Condition 7.1 Crease Markings refers to Laws of Cricket 7.4

**7.4 The return creases** - The return creases, which are the inside edges of the crease markings, shall be at right angles to the popping crease at a distance of 4 ft 4 in/1.32 m either side of the imaginary line joining the centres of the two middle stumps. Each return crease shall be marked from the popping crease to a minimum of 8 ft/2.44 m behind it and shall be considered to be unlimited in length.

### 3. Playing Condition 11.1.5 Tea Break refers to Laws of Cricket 11.9

**11.9 Agreement to forgo intervals** - At any time during the match, the captains may agree to forgo the tea interval or any of the drinks intervals. The umpires shall be informed of the decision. When play is in progress, the batters at the wicket may deputise for their captain in making an agreement to forgo a drinks interval in that session.

## **4. Playing Condition 41.1 Bowling of dangerous and unfair non pitching deliveries refers to Laws of Cricket 41.7**

### **41.7 Bowling of dangerous and unfair non-pitching deliveries**

41.7.1 Any delivery, which passes or would have passed, without pitching, above waist height of the striker standing upright at the popping crease, is unfair. Whenever such a delivery is bowled, the umpire shall call and signal No ball.

41.7.2 The bowling of a delivery as defined in 41.7.1 is also dangerous if the bowler's end umpire considers that there is a risk of injury to the striker. In making that judgement the umpire shall:

- disregard any protective equipment worn by the striker
- be mindful of:
  - the speed, height and direction of the delivery
  - the skill of the striker
  - the repeated nature of such deliveries.

41.7.3 If the umpire considers a non-pitching delivery, or a series of non-pitching deliveries, to be dangerous under 41.7.2, when the ball is dead, the umpire shall repeat the No ball signal to the scorers and then caution the bowler, indicating that this is a first and final warning. The umpire shall also inform the other umpire, the captain of the fielding side and the batters of what has occurred. This caution shall apply to that bowler throughout the innings.

41.7.4 Should there be any further dangerous such delivery by the same bowler in that innings, the umpire shall

- call and signal No ball
- when the ball is dead, direct the captain of the fielding side to suspend the bowler immediately from bowling
- inform the other umpire for the reason for this action.

The bowler thus suspended shall not be allowed to bowl again in that innings.

If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.

Additionally, the umpire shall

- inform the batters and, as soon as practicable, the captain of the batting side.

The umpires together shall report the occurrence as soon as possible after the match to the Executive of the offending side and to any Governing Body responsible for the match, who shall take such action as is considered appropriate against the captain, any other individuals concerned and, if appropriate, the team.

41.7.5 The warning and action sequences in 41.7.3 and 41.7.4 are independent of those in 41.6.

41.7.6 If the umpire considers that a bowler deliberately bowled a non-pitching delivery, deemed to be unfair as defined in 41.7.1, then the caution and warning in 41.7.3 shall be dispensed with. The umpire shall

- immediately call and signal No ball.
- when the ball is dead, direct the captain of the fielding side to suspend the bowler immediately from bowling and inform the other umpire for the reason for this action.

The bowler thus suspended shall not be allowed to bowl again in that innings.

If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.

- inform the batters and, as soon as practicable, the captain of the batting side.

The umpires together shall report the occurrence as soon as possible after the match to the Executive of the offending side and to any Governing Body responsible for the match, who shall take such action as is considered appropriate against the captain, any other individuals concerned and, if appropriate, the team.
